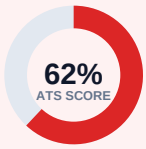
AI CAREER COMPANION • RESUME PERFORMANCE AUDIT

Candidate: Parth Desai (24C11018)
Branch: Computer Science & Engineering • **Date:** 2026-10-15



Needs Keyword Optimization

Resume File: Parth_Vishal_Desai_Resume.pdf

Primary Role Match: Full Stack Developer

Detected Core Skills (13): CSS3, HTML5, Java, JavaScript, MySQL, Git, GitHub, Adaptability, Analytical Thinking, Communication, Problem Solving, Team Collaboration, Time Management

1. Suitable Recruiter Benchmark (Top Matches from 45 Campus Hiring Dataset)

Target Recruiter	Fitting Role	Match %	Indicative Package	Alignment
WebOccult Technologies	Frontend Developer	**80.0%**	3.0 - 5.5 LPA	Strong Match
Beetonz Infotech	Software Developer	**80.0%**	3.0 - 5.5 LPA	Strong Match
Larsen & Toubro	Graduate Engineer Trainee	**80.0%**	3.0 - 5.5 LPA	Strong Match

2. Role Fit & Career Trajectory

Top Role Fit: Full Stack Developer

Alternative Career Paths: Full Stack Developer (80%), Frontend Engineer (80%)

Profile demonstrates highest structural alignment with systems engineering and full-stack software tracks based on verified algorithmic modeling.

3. Critical Skill Gaps to Close

Identified Missing In-Demand Skills: No critical skill gaps identified (Strong role fit)

Closing these competencies through targeted practice tests and integrating them into a demonstrated technical project will boost candidate recruiter qualification rates to 95%+.

4. Actionable ATS Optimization Fixes

1. Add a dedicated 'Certifications / Achievements' section to improve ATS parser categorization pass rate.

2. Incorporate more impactful action verbs (e.g., 'Architected', 'Optimized', 'Automated', 'Spearheaded') to demonstrate technical ownership.

3. Quantify project impact with measurable outcomes (e.g., 'Reduced latency by 25%', 'Processed 10k+ records') for higher recruiter scoring.
